Dear certificate holder,

Through this letter we would like to inform you about the change of the trading platform for the certificates of the Association HZPC. As of the next trading day, which takes place in November 2019, HZPC will use the Captin Trading Platform.

MyLeo

Until recently, the trade in certificates from the Association HZPC has taken place using the 'MyLeo' online environment. The MyLeo trading platform is part of ING. As of 1 July, ING will no longer offer this service. HZPC will therefore move the certificates to another solid platform.

Preparations for this transfer are underway and you should be able to log in by the end of September. This means that you will not be able to review your account for several months. ING will soon notify you, in writing, of the number of certificates that you currently hold.

Captin

After careful consideration, HZPC has decided to use the Captin Trading Platform. Captin is extremely experienced in terms of certificate trading and is a reliable partner. Captin is already a partner to organisations such as ForFarmers, Agrifirm and Farmel.

Captin is a financial service provider that operates under the supervision of the Netherlands Authority for the Financial Markets (AFM) and De Nederlandsche Bank (DNB).

Via the trading platform of Captin, investors can trade in non-listed companies. Captin also supports companies with the implementation and administration of employee participation schemes. If you have any questions to Captin, please send an email to info@captin.nl or call +31 (0)20 854 65 00.
